Climate risk, cost and funding assessment

Frozen public-source screening · 575-Nation baseline · 21 October 2026

Read this first

This is a development-stage screening snapshot, not a certified risk assessment, an impact valuation, a funding need or a sovereign priority. Tribal Nations retain authority over decisions and information.

Coverage: **575 Nations**; 356 have five supported hazard scores and 219 have four. Missing hazards are unavailable, not zero. Hazard scores are modeled exposure indices (0–1), not probabilities or dollars.

Scanner package 0.8.9; formula 3.2.0; frozen profiles through 2026-10-13T00:56:16.071943+00:00. Source commit: e5336da2f79c0e386aadb2aab7f25f041441ca15. Input manifest SHA-256: 81216a2384e226ce5e06276d423fb87d6ad8fbba9e04c36a2913c1f9e5c4da6d.

catf-scanner-regions-1: seven scanner geographic state groups plus California and Other. Assign each Nation once by first recorded registry state; counties once by state. This is a presentation grouping, not BIA/NCAI/ATNI jurisdiction.

National and regional supported hazard frequency

Count of Nations whose supported CPRI hazard score is in their top five; not a sum of scores or dollar estimates. County dollar ranking is a separate all-geography view.

Each row gives the number of Nations whose supported top five includes the hazard, followed by the number assessed for that hazard and the full regional denominator. Multiple hazards can occur for each Nation.

Geography	Nations	Supported hazard frequency: count; assessed / denominator
National baseline	575	Flooding: 575; 575 / 575 Wildfire: 572; 575 / 575 Severe weather: 552; 575 / 575 Drought: 353; 356 / 575 Extreme heat: 344; 348 / 575

Geography	Nations	Supported hazard frequency: count; assessed / denominator
Pacific Northwest	52	Extreme heat: 52; 52 / 52 Flooding: 52; 52 / 52 Drought: 51; 52 / 52 Severe weather: 51; 52 / 52 Wildfire: 50; 52 / 52
Alaska	227	Flooding: 227; 227 / 227 Landslide: 227; 227 / 227 Severe weather: 227; 227 / 227 Wildfire: 227; 227 / 227 Drought: 8; 8 / 227
Great Plains	68	Drought: 68; 68 / 68 Flooding: 68; 68 / 68 Severe weather: 68; 68 / 68 Wildfire: 68; 68 / 68 Extreme heat: 66; 68 / 68
Southwest	65	Drought: 65; 65 / 65 Extreme heat: 65; 65 / 65 Flooding: 65; 65 / 65 Severe weather: 65; 65 / 65 Wildfire: 65; 65 / 65
Great Lakes	23	Drought: 23; 23 / 23 Extreme heat: 23; 23 / 23 Flooding: 23; 23 / 23 Severe weather: 23; 23 / 23 Wildfire: 23; 23 / 23
Southeast	18	Drought: 18; 18 / 18 Flooding: 18; 18 / 18 Severe weather: 18; 18 / 18 Wildfire: 18; 18 / 18 Extreme heat: 17; 18 / 18
Northeast	17	Drought: 17; 17 / 17 Extreme heat: 17; 17 / 17 Flooding: 17; 17 / 17 Severe weather: 17; 17 / 17 Wildfire: 17; 17 / 17

Geography	Nations	Supported hazard frequency: count; assessed / denominator
California	105	Flooding: 105; 105 / 105 Extreme heat: 104; 105 / 105 Wildfire: 104; 105 / 105 Drought: 103; 105 / 105 Severe weather: 83; 105 / 105
Other / unassigned	0	

National and regional county cost context

These dollar figures cover all residents, buildings and agriculture in included counties. **They are not Tribal losses.** Expected Annual Loss is an annualized model expectation, not next-year loss, historical damage, projected cost or a funding request.

The 15 climate-sensitive hazard subtotal excludes earthquake, tsunami and volcano. Avalanche and landslide have multiple causes. Summing available hazard cells does not attribute all loss to climate change. Each county is counted once; missing source fields are not zero.

Source: FEMA NRI December 2025 v1.20. Cached input does not retain a common price year; observation periods vary by hazard. All-hazard totals and climate-sensitive subtotals use different scopes.

Geography	Counties	Climate-sensitive EAL / year	All-hazard EAL / year
National baseline	3232	$126,108,826,980.59	$153,754,543,988.95
Pacific Northwest	175	$4,551,801,482.57	$8,810,293,761.00
Alaska	30	$222,874,730.81	$941,279,954.66
Great Plains	972	$27,021,495,808.18	$27,618,166,263.78
Southwest	158	$8,244,481,940.43	$9,688,509,434.90
Great Lakes	437	$16,522,750,877.32	$17,282,163,519.68
Southeast	888	$31,690,738,155.63	$33,791,132,581.11
Northeast	301	$17,447,521,196.55	$18,296,477,408.94
California	58	$15,163,242,007.38	$30,211,220,241.19
Other / unassigned	213	$5,243,920,781.71	$7,115,300,823.69

Existing scanner place-context aggregate

Existing scanner sum of NRI composite EAL, one representative per boundary GEOID, proxy last. County/tract source contexts can overlap: this is an index-like sum of place contexts, not aggregate Tribal loss, and regional sums must not be added.

Non-additive context only. Shared county/tract inputs can overlap across places. Do not sum the regions or interpret these figures as aggregate Tribal damage. The county totals above supply a non-overlapping all-geography comparison.

Geography	Representative places	Overlapping context indicator (USD)
National baseline	565	$26,702,974,359.43
Pacific Northwest	52	$209,580,952.77
Alaska	226	$3,440,027,824.18
Great Plains	59	$1,892,776,079.34
Southwest	65	$9,239,778,553.69
Great Lakes	23	$508,663,354.70
Southeast	18	$1,039,522,196.23
Northeast	17	$1,172,913,815.62
California	105	$9,199,711,582.90
Other / unassigned	0	Unavailable

Historical U.S. disaster costs

The cached NCEI archive ends in 2024: 403 unique billion-dollar weather/climate disaster events total $2,917,606,500,000.00. These are all-U.S. losses, not Tribal estimates. Costs remain CPI-adjusted as stored; the cache omitted its inflation base-year label.

The presentation separately cites NOAA's January 2025 national assessment, which reports $182.7 billion for 27 events in 2024, in 2024 dollars. Source revisions may differ. Neither series isolates climate-change causation. Regional historical-cost allocation is unsupported.

Recorded funding

1,851 unique exact-name/alias matched awards for 269 Nations total **$2,854,298,374.53**. Five negative adjustments remain in the sum.

Historical award-level obligations are not available balances, annual spending, climate-only funding, or future awards.

The cache query covers FY 2022–2026, but amounts are award-level totals and performance dates can lie outside that range.

The cache does not preserve retrieval timestamps or transaction histories; no fiscal-year spending totals are reported.

Only exact normalized formal-name or historical-alias matches are published. Housing authorities and other ambiguous relationships remain excluded pending review.

Negative amounts are retained. Identical award IDs count once; conflicting IDs are excluded rather than chosen arbitrarily.

Unmatched and consortium awards were excluded upstream; their totals are unavailable, not zero.

Archived program entries are leads for current notice review. Budget, open status and eligibility remain unverified.

Source: USAspending public award records. Archived leads are in funding.json; the separately checked funding leads below do not alter these historical obligations.

Region	Awards	Recipient Nations	Award-level obligations
Alaska	1057	158	$673,949,039.22
California	129	23	$117,601,737.98
Great Lakes	22	5	$78,264,121.92
Northeast	92	10	$122,175,015.79
Other / unassigned	0	0	$0.00
Great Plains	203	27	$1,177,127,562.13
Pacific Northwest	160	28	$388,366,320.59
Southeast	141	12	$247,701,950.11
Southwest	47	6	$49,112,626.79

Selected funding and technical-assistance leads

Checked 2026-10-21. Selected national leads; not an exhaustive funding inventory. Regional award charts do not determine eligibility for these programs.

Status is frozen on the check date. Follow the current official notice for amendments, eligibility, cost share and application instructions. Program envelopes are not funds held by Tribes and are not added to historical obligations.

Program / source	Status / deadline	Funding / eligibility
EPA Tribal nonpoint-source management competition Amendment 2, 7 October 2026; sections 1 and 2	Open on check date 9 November 2026, 11:59 p.m. Eastern	Approximately $3.5 million program envelope; up to $175,000 per award. Neither is a recorded Tribal obligation. Federally recognized Tribes or qualifying intertribal consortia; required EPA-approved nonpoint-source assessment, management program and TAS status must have been met by 10 October 2025. Confirm the official eligible list and all notice conditions. National competition. Separate base-grant work-plan deadlines vary by EPA Region.
DOE technical assistance for Tribal energy projects Official program and current-opportunity pages accessed 21 October 2026	Ongoing requests listed Ongoing; scope and available budget determine acceptance	No-cost technical assistance; no cash envelope asserted. Federally recognized Tribes, Alaska Native regional/village corporations and specified Tribal entities. The requester needs authority to act for the entity; consult the source for lane-specific conditions. National program; assistance is scoped to the requesting entity and project.
BIA Tribal Community Resilience annual awards Official program page accessed 21 October 2026	Current open round unverified No current deadline established by the inspected page	Current funding envelope unavailable. Program page describes federally recognized Tribes and Tribal organizations; a current solicitation is needed for exact conditions. National program context; no regional allocation asserted.

Per-Nation supported top-five table

Descending supported CPRI hazard exposure score (0–1) from full profiles, with the assessment.assessed list as the availability gate; stable hazard-ID tie order; at most five. Missing is null, never zero.

Scores below are modeled exposure indices, ordered within each Nation. A displayed zero is a supplied value; an absent hazard is not zero. Coastal erosion, sea-level rise and permafrost remain unassessed. Percentiles describe the composite physical score, not the listed hazard score; differing coverage limits comparison.

The 115 Nations with evaluated physical percentile 80 meet the research-follow-up threshold. This is a cohort-relative screen, not a probability, eligibility decision or sovereign priority. Full hazard statuses and uncertainty fields are in nation-hazards.csv and risk.json.

Nation	Region	Supported hazards: exposure score (0–1)	Physical percentile
Absentee-Shawnee Tribe of Indians of Oklahoma	plains	Severe weather 0.899; Wildfire 0.896; Flooding 0.775; Extreme heat 0.755; Drought 0.630	97.7
Agua Caliente Band of Cahuilla Indians of the Agua Caliente Indian Reservation, California	california	Flooding 0.933; Wildfire 0.907; Extreme heat 0.422; Drought 0.416; Severe weather 0.207	70.4
Ak-Chin Indian Community	southwest	Flooding 0.964; Extreme heat 0.782; Drought 0.734; Severe weather 0.729; Wildfire 0.428	94.4

Sources and limitations

Development snapshot, not a certified risk assessment. Review source coverage and local knowledge before decisions.

Nation hazard values are modeled exposure indices, not probabilities, measured damages or monetary losses.

EAL is an annualized expectation, not a prediction of next year, historical damage, or a climate-change attribution estimate.

Dollar totals from all counties describe all residents and assets. They must never be labeled Tribal losses.

Missing EAL cells and unassessed hazards remain gaps; supported zero values remain zero.

Avalanche and landslide are climate-sensitive hazards with multiple causes; inclusion does not attribute all loss to climate change.

CPRI ranks are cohort-relative and use differing assessment coverage. Coastal change, sea-level rise and permafrost remain unassessed in this snapshot.

The cached NCEI record ends in 2024. Only 55 event rows have state lists; regional event-cost allocation is unsupported.

The cached dollar series does not preserve its inflation base-year label; price_year is null rather than inferred.

FEMA National Risk Index, December 2025 v1.20

NOAA NCEI Billion-Dollar Weather and Climate Disasters, cached 1980–2024 series

USAspending award data, historical scanner cache

BIA federally recognized Tribal entities, January 30, 2026

TCR scanner CPRI profiles, frozen formula 3.2.0 — Derived scanner exposure indices using FEMA NRI and other public hazard inputs; this link describes the primary source, not the scanner formula.
